ESORA
SCREEN INKS SERIES

For all kind of Substrates and Applications

www.seven11industries.com

New Manufacturing Plant & H.O.
Morai Industrial Park, Vapi, Gujarat

Established in 1995, Seven-11 Industries has excelled in printing inks manufacturing and has pioneered the production of water-based, solvent based & screen printing inks. The manufacturing plants strategically located near the national highway in chemical zones of Daman & Sarigam helps in faster delivery and service. Moreover raw material procurement at optimized costs helps further pass cost benefits to our customers.

We ensure high-quality consistent inks in every container. The company is continually achieving new heights in the fast-evolving screen inks industry with superior blending technology & imported raw materials. We invite you to discuss your most complex requirements and we promise to deliver the best solution.

OUR VISION

To develop & deliver India's best eco-friendly and safe inks for print packaging.

OUR MISSION

Manufacturing & supplying inks that fulfill customer's needs and develop sustainable & economically viable solutions; while optimizing the operational costs to maximize output of the company.

Having pioneered both water-based and solvent inks manufacturing, we're now further strengthening our existing portfolio of high quality screen inks. We're committed to new product & process developments in interest of our clients.

Mr. Rajkumar Lodha
Director

Seven-11 provides Esora Screen Inks for wide variety of applications which can be used in wide variety of substrates. We also work closely with our clients to formulate screen inks for their specific application, use case and requirements.

Application

- Ad Specialty
- Container
- Consumer Durables
- Electronic
- Flexible Material
- Forming
- In Mold Decorating
- Industrial Application
- Membrane Switch
- Nameplate
- POP
- Signage

Substrates

- Acetate
- Acrylic
- Acrylic Coated Metal
- Anodized Aluminum
- Brass
- Coated Cardstock
- Coated Metal
- Coated Paper
- Corrugated Plastic
- Enamel Coated Metal
- Epoxy Coated
- Fibre Drums
- Fibreboard
- Glass
- Masonite
- Other Plastics
- PET & PETG
- Polycarbonate
- Polyester Coated
- Polypropylen
- Print Treated Polyester
- Stainless Steel
- Static Cling
- Styrene & Tyvek
- Top Coated Polyester
- Treated Corrugated Plastic
- Polyethylene HD & LD
- Treated Polypropylen
- Uncoated Cardstock
- Untreated Polypropylene
- Urethane Coated
- Vinyl Banner & Decal
- Vinyl Rigid
- Wood

Products

UNIVERSAL CONCENTRATE (BASE) FOR SCREEN INKS
Use For Polybond (HDPE, LDPE) Inks, PVC Inks, PP Base Inks, Corona Free Inks, Eva Inks, Pad Print Inks. All Substrate To Be Apply Base.

PVC GLOSS INKS
Solvent Base High Gloss PVC Base Inks

PVC MATT INKS
Solvent Base Matt Inks PVC Base Inks

POLYSTICK INKS
High Gloss, Treated HDPE/LDPE Inks

TWO PACK INKS
Chemical Resistance, High Gloss Solvent Base Inks, Treated Plastics Substrate

SCUFF FIX INKS (SF)
Fast Drying Solvent Base Gloss Inks, Variety Of Glass, Metal & Plastic Substrate Application

SCUFF MATT INKS (SM)
Fast Drying Solvent Base Matt Inks, Variety Of Glass, Metal & Plastic Substrate Application

EVA SLIP INKS
Solvent Base Fast Drying Inks For Eva / Slippers / Rubber Application

PAD PRINT INKS
Solvent Base Fast Drying Inks For Variety Of Plastics

- Normal Pad Printing Inks
- Two Pack Pad Printing Inks
- Polyestic Pad Printing Inks
- Corona Free Pad Printing Inks
- Scuff Pad Printing Inks

CORONA FREE INKS
Solvent Base Inks, Acid Resistance (like Battery & Untreated Substrate)

TWO PACK (Screen)

Applications: Perfume Bottle/HDP Drums
Recommended Substrates: Treated HDPE, LDPE, PP/ Glass & Metal Drum

TWO PACK (Pad)

Applications: Treated PP
Recommended Substrates: Treated PP

POLYBOND GLOSS

Applications: Grease/Paint Boxes, Paint Buckets
Recommended Substrates: Treated HDPE, LDPE, PP/ Metal Drum

POLYBOND MATT

Applications: HDPE Paint Buckets
Recommended Substrates: Treated HDPE, LDPE, PP/ Metal Drum

PVC MATT

Applications: VKC Walkaroo
Recommended Substrates: All PVC

PVC GLOSS

Applications: Rubber Toys
Recommended Substrates: All PVC

EVA INK

Applications: Yoga Matt/Slippers
Recommended Substrates: RUBBER

NYLOSTIC INK (TNY)

Applications: Umberala, Bags & Rexine
Recommended Substrates: Rexine

CRYLO (Screen)

Applications: Flair Pen, Engg Instruments, Water Bottle
Recommended Substrates: Acrylic, PC, ABS, HIPS, PET & SHAN

CRYLO (Pad)

Applications: AC Logo, Remote, Toys, Eng Instruments
Recommended Substrates: Acrylic, PC, ABS, HIPS, PET & SHAN

PDP (Pad)

Applications: Cap (Pepsi, Thumps up Bottle)
Recommended Substrates: Treated PP, HDPE

FLAME FREE (Screen)

Applications: Cooler Button (Regulator), Fridge
Recommended Substrates: Vergin PP

FLAME FREE (Pad)

Applications: Cooler Button (Regulator), Fridge
Recommended Substrates: Virgin PP

WR

Applications: Slippers Sole, Nylon
Recommended Substrates: Treated PP, LDPE

FH (Without Treatment)

Applications: Packing, Spice ,Oil Containers
Recommended Substrates: Polypropylene

POLYHARD (Matt)

Applications: Paint Buckets
Recommended Substrates: Treated HDPE, LDPE, PP

POLYHARD (Gloss)

Applications: Paint Buckets
Recommended Substrates: Treated HDPE, LDPE, PP

MEGA GLOSS

Applications: Water Tanks & PVC Pipes
Recommended Substrates: Treated HDPE, LDPE, PP/ Metal Drum, Paper

NORMAL OFFSET

Applications:
Mono carton & Box Printing

Recommended Substrates:
Kraft Board, Duplex Board,
ITC Board & All Papers

METAL OFFSET

Applications:
Metal Tubes

Recommended Substrates:
Metal Tubes

DRY OFFSET UV

Applications:
Amul Cups, Ice Creams

Recommended Substrates:
PP, HIPS, Ice Cream Cups &
Treated PP Containers

QUALITY ASSURANCE

We stringently monitor our manufacturing process at every step to ensure that our inks are stable during entire printing process to achieve high-quality results.

**Using Advance
Manufacturing Technology
For Water Based Inks**

**Dedicated Team Of
Experienced &
Qualified Personnel**

**Fully Equipped
Quality Control
Laboratory**

CORE STRENGTH

We understand our success is directly dependent on our client's success. Hence we always take the 'Client First' approach in everything we do at Seven11. We continually endeavor to convert the following principles into our core strengths at every step.

**Quality
Conscious**

**Product
Innovation**

**Service
Oriented**

**Cost
Effective**

**Timely
Delivery**

**Strong
Supply Chain**
